INTELLIGENCE REPORT

110558

COUNTRY Poland/Polish Administered Germany
SUBJECT Locomotive and Rolling Stock Production

DATE: 25X1X
INFO. [REDACTED]
DIST. 16 September 1947
PAGES 2 25X1A
SUPPLEMENT [REDACTED]

ORIGIN 25X1X
[REDACTED]

1. Between 1 January and 1 June, 1947, car foundries and rolling stock manufacturing installations in Poland and Polish Administered Germany turned out 4,873 freight cars. This was an average monthly production of 814 cars. [REDACTED] 25X1X
2. In June, 1947, the Railway Brake Works in Starachowice (R52/Q05), south of Radom, began mass production of railway brakes for locomotives, freight and passenger cars. This plant services all Polish car foundries with brakes. [REDACTED] 25X1X
3. In May, 1947, the Cegielski locomotive factory near Poznan received an order from the Polish Central Ministry of Planning for 20 locomotives for Russian wide-gauge railways. The locomotives are to be delivered in January, 1948. [REDACTED] 25X1X
4. During February, 1947, the locomotive factory at Chrzanow (Q51/Y85) (Fabryka Lokomotyw w Chrzanowie), between Katowice and Krakow, produced the following, valued at 61,545,000 zloty:
 - a) 7 normal gauge locomotives for Ministry of Communication,
 - b) 6 locomotives for industry,
 - c) wheel sets for H. Cegielski, Poznan,
 - d) wheel sets for PKD (Polish State Railways), [REDACTED] 25X1X
 - e) repairs on 2 locomotives. [REDACTED]
5. The "Polish Industry for Rolling Stock" (Przemysl Taboru i Sprzeta Kolejowego) announced the following production for February, 1947, with a value of 21,600,000 zloty:
 - a) 2 locomotives,
 - b) 14 tenders,
 - c) 5 passenger cars, [REDACTED] 25X1X
 - d) 752 freight cars. [REDACTED]
6. The railway workshops in Bydgoszcz (Bromberg) (P54/J09) are now repairing on an average of 35 locomotives, 33 passenger cars, and 1,000 freight cars per month. These shops employ over 5,000 workers. [REDACTED] 25X1X

25X1X 7. The C. Fiebrandt Railway Signals Works at Bydgoszcz, which is under State administration, is now filling each month orders valued at 6,500,000 zloty. This plant is reported already to have enough orders onhand to keep it busy for the next three years. This firm produces railway and mining mechanical and electrical signals, employs almost 500 workers, and collaborates closely with the Cegielski car foundry and State-owned car foundry in Wroclaw (Breslau).

25X1X 8. According to official estimates, Polish industry is capable of rolling enough rails per year to lay 800 km. of track. Due to a shortage of materials, experiments are being made with concrete sleepers. 25X1X

25X1X in view of the shortage of timber in Poland, the Ministry of Communications is being supplied with a sample order of 10,000 ferro-concrete railway sleepers. 25X1X
